

Theresa Crimmins

Theresa Crimmins serves as the Assistant Director for the USA National Phenology Network's National Coordinating Office. She has been with the USA-NPN since 2007. Theresa works enthusiastically to support involvement in *Nature's Notebook*, the growth and use of phenology data and resources curated by the USA-NPN, and a broader appreciation of phenology among scientists and non-scientists alike.

Theresa obtained a B.S. in biology and an M.A. in geography from Western Michigan University and a Ph.D. in natural resources from the University of Arizona. Her research interests encompass plant response to global change, spatial analysis, and engaging citizen scientists of all ages in scientific discovery. She has also been a haphazard CoCoRaHS observer and a consistent CoCoRaHS supporter for many years.
