

Remember to subtract the amount of warm water that you've added to the tube

Reading of 0.79 inches of water
minus 0.50 inches of water added
gives a final reading of 0.29 inches

Tube full	0.79
- Water added	0.50

Final reading	0.29

When snow doesn't cover the ground evenly:

←
If half the ground has
2.0" and half the ground
is bare, report 1.0" as
your total depth.

→
If more than half the
ground is bare report "T"
(trace) and mention the
range of depths in your
comments.
