

Matt Kelsch

Matt Kelsch is a hydrometeorologist with the COMET Program at the University Corporation for Atmospheric Research in Boulder, Colorado. He has contributed to the development of many COMET training projects in meteorology, climate science, and hydrology and has investigated dozens of major weather events from around the United States. He also is an active participant in daily climate observations and rainfall observing networks, and has been an active weather observer and gardener since he was 6 years old. Matt is a meteorologist by background, with a Master of Science Degree in meteorology from the University of Oklahoma, and a Bachelor of Science Degree in meteorology from the State University of New York, College at Oswego.
